- **Size:** Typically 4 Inches By 6 Inches (standard Size) And Customizable
- **Global Applicability:** Compliance With International Shipping Standards And Postal Requirements
- **Label Type:** Shipping Label
- **Highlight:** **Tear Resistant Thermal Printing Label**,

Product Description:

The shipping label products use thermal or direct thermal printing technology, which ensures that the printed information is clear and easy to read. The high resolution of the printing technology provides a clear barcode scanning, which is crucial for efficient sorting and tracking of packages.

The shipping label products are user-friendly and compatible with standard printing equipment, making them easy to use for individuals and businesses alike. The labels are designed to be attached to packages, providing a clear indication of the destination and tracking information.

One of the key advantages of the shipping label products is that they are recyclable labels, which means that they are environmentally friendly and can be reused or recycled. The labels are made of high-quality materials that are designed to withstand the rigors of the shipping process, ensuring that the label remains attached to the package throughout the delivery process.

Whether you are shipping through USPS, FedEx, or UPS, the shipping label products provide a reliable and efficient way to sort, track, and deliver your packages. The FedEx label is a common example of a shipping label product that is widely used by businesses, providing a clear indication of the destination and tracking information.

In conclusion, the shipping label products are an essential tool for businesses that require efficient sorting, tracking, and delivery of packages. With their user-friendly application and compatibility with standard printing equipment, these labels are easy to use and provide high-resolution printing for clear barcode scanning. The recyclable labels are made of high-quality materials that are designed to withstand the rigors of the shipping process, making them environmentally friendly and cost-effective.

Features:

- Product Name: Shipping label
- Adhesive: Permanent Adhesive Backing
- Label Type: Shipping Label
- Usage: Attached To Packages For Sorting, Tracking, And Delivery By Shipping Carriers (e.g., USPS, FedEx, UPS)
- Global Applicability: Compliance With International Shipping Standards And Postal Requirements
- Material: Paper Or Synthetic (e.g., Polypropylene)
- Delivery Label
- Environmental Labels

Technical Parameters:

Label Type	Shipping Label
Environmental Characteristics	May Use Recyclable Materials Or Be Designed To Reduce Environmental Impact
Ease of Use	User-friendly Application And Compatibility With Standard Printing Equipment
Global Applicability	Compliance With International Shipping Standards And Postal Requirements
Information Fields	Includes Sender's Address, Recipient's Address, Tracking Barcode, Shipping Method, And Possibly Other Custom Fields
Size	Typically 4 Inches By 6 Inches (standard Size) And Customizable
Printing Technology	Thermal Or Direct Thermal Printing
Usage	Attached To Packages For Sorting, Tracking, And Delivery By Shipping Carriers (e.g., USPS, FedEx, UPS)
Material	Paper Or Synthetic (e.g., Polypropylene)
Print Resolution	High Resolution For Clear Barcode Scanning

Strong adhesion guarantees  
that the label will not  
fall off

Suitable for Multiple  
Packages

### Applications:

The Hanbu Shipping Label is typically 4 inches by 6 inches, which is the standard size for shipping labels. However, it can be customized to meet the specific needs of the business. For example, if a business needs to label larger packages, the Hanbu Shipping Label can be made larger to accommodate the package's size.

This Delivery Label is made in China and is certified with ISO9001, ROHS, and CE certifications. These certifications ensure that the product is of high quality and meets international standards.

The Hanbu Shipping Label can be ordered in small quantities, with a minimum order quantity of one. Each roll of shipping labels comes with plastic bag packaging, which ensures that the labels are protected during shipping and storage. Delivery time for the product is typically 4-8 working days, and payment terms include L/C, T/T, Western Union, and MoneyGram.

The Hanbu Shipping Label is designed to be environmentally friendly, with the option to use recyclable materials or be designed to reduce environmental impact. This makes it an ideal product for businesses that want to reduce their environmental footprint.

The Hanbu Shipping Label uses thermal or direct thermal printing technology, which ensures that the print on the label is clear and legible.

The label type is a shipping label, which means that it is specifically designed for labeling packages for delivery and shipping.

In summary, the Hanbu Shipping Label is a durable, water-resistant, and customizable product that is perfect for businesses that need to label their packages for delivery and shipping. With certifications and environmentally friendly options, this product is a high-quality solution for any business's labeling needs.
