Premium Tear Resistant Labels Water And Tear Resistant Easy Customization

Product Description:

We offer two different material options for our labels: paper or synthetic. Our paper labels are made from high-quality paper that provides clear, crisp printing results. Our synthetic labels, on the other hand, are made from materials such as polypropylene, which are more durable and resistant to tearing and water damage.

Our Delivery Labels are printed using either thermal or direct thermal printing technology, ensuring your labels are of the highest quality and are easy to read. Thermal printing technology produces high-quality, long-lasting labels that are resistant to fading and smudging, while direct thermal printing is ideal for short-term labeling needs.

We are committed to reducing our environmental impact, and therefore our Delivery Labels may use recyclable materials or be designed to reduce environmental impact. This means that you can feel good about using our labels while also doing your part to protect the environment.

Whether you are a small business owner or a large corporation, our Delivery Labels are the perfect solution for all your shipping needs. Order now and experience the convenience and efficiency of our 4 inches labels.

Size	Typically 4 Inches By 6 Inches (standard Size) And Customizable
Printing Technology	Thermal Or Direct Thermal Printing

Strong adhesion guarantees  
that the label will not  
fall off

Suitable for Multiple  
Packages

### Applications:

Hanbu's custom shipment labels are available in a standard size of 4 inches by 6 inches, but can also be customized to fit any size requirements. They can be printed using thermal or direct thermal printing technology, ensuring high resolution labels that are easy to read and scan.

Hanbu's custom shipment labels are compliant with international shipping standards and postal requirements, making them suitable for use in a global market. They are also customizable with logos, special instructions, or additional information as needed.

Hanbu's custom shipment labels are perfect for businesses that ship products domestically or internationally. They can be used for a variety of products, including food, electronics, and clothing. The labels are also suitable for use in a variety of industries, including retail, manufacturing, and healthcare.

Hanbu's custom shipment labels are sold in rolls, with each roll containing a plastic bag package. The minimum order quantity is one, making it easy for businesses of all sizes to order. Delivery time is 4-8 working days, and payment terms include L/C, T/T, Western Union, and MoneyGram.

Hanbu's custom shipment labels are certified with ISO9001, ROHS, and CE, ensuring that they meet the highest quality standards.
