Compatible 4x6 Thermal Labels 500 Fanfold Thermal Printer Labels Shipping Labels 100x150mm

Product Description:

Our Shipping Labels are available in paper or synthetic materials, such as polypropylene. This allows businesses to choose the material that best suits their needs. The labels are designed to be high resolution, ensuring clear barcode scanning. This makes it easy for businesses to track their packages and ensure that they arrive at their destination on time.

Our Shipping Labels come with various information fields, including the sender's address, recipient's address, tracking barcode, shipping method, and possibly other custom fields. This allows businesses to customize the labels to meet their specific needs. Our Custom Shipment Label is perfect for businesses that require a label that is tailored to their specific needs.

Our Shipping Labels are designed to be durable and tear-resistant. This makes them perfect for businesses that need to ship their products in various weather conditions. These waterproof labels are perfect for businesses that need to ensure that their packages arrive at their destination in perfect condition.

Our Shipping Labels are perfect for businesses that need a label that is easy to use and provides clear information about the package. These labels are perfect for businesses that need to ship their products quickly and efficiently. Our Shipment Label is perfect for businesses that need a label that is both durable and easy to use.

Label Type	Shipping label, parcel label, freight label
Material	Paper or synthetic (e.g., polypropylene)

Strong adhesion guarantees
that the label will not
fall off

Suitable for Multiple
Packages

Applications:

These shipping labels are made with either paper or synthetic materials, such as polypropylene. They are designed to be used for sorting, tracking, and delivering packages by shipping carriers, such as USPS, FedEx, and UPS. The information fields on these labels include the sender's address, recipient's address, tracking barcode, shipping method, and possibly other custom fields.

The printing technology used for these labels is either thermal or direct thermal printing. This means that the labels can be printed quickly and easily, without the need for ink or toner. These labels are also water-resistant and tear-resistant, ensuring that they will stay intact and legible throughout the shipping process.

These water-resistant labels are perfect for shipping items that may be exposed to water or moisture during transit. The waterproof labels will ensure that the information on the label remains legible, even in wet conditions. These labels are also ideal for use with USPS labels, as they meet the requirements for USPS shipping labels.

In conclusion, Hanbu's shipping labels are a high-quality, durable, and reliable option for businesses and individuals who need to ship packages. With their water-resistant and tear-resistant properties, these labels are a great choice for any item that needs to be shipped, no matter the conditions.
