Water Resistant Tear Resistant High Resolution Labels / Environmental Labels

Product Description:

The Shipping Label product boasts a high resolution for clear barcode scanning. This means that your packages will be easy to track, and your customers will receive their orders quickly and efficiently. The high resolution also ensures that your company's branding and logo are clearly visible on the label.

The Printing Technology utilized for our Shipping Label product is thermal or direct thermal printing. This ensures that the labels are of high quality and can withstand the rigors of shipping. The printing technology is also cost-effective, which is ideal for businesses that need to print a large volume of labels.

Our Shipping Labels are available in two materials: paper or synthetic (e.g., polypropylene). Paper labels are ideal for businesses that do not require labels to be water-resistant or durable. Synthetic labels, on the other hand, are more durable and water-resistant and are ideal for businesses that need labels that can withstand harsh shipping conditions.

The standard size of our Shipping Labels is typically 4 inches by 6 inches, which is the most commonly used size for package labels.

However, our Shipping Labels are customizable, which means that you can adjust the size to suit your specific needs. This flexibility is perfect for businesses that need to print labels for different types of packages and parcels.

The Shipping Labels come with permanent adhesive backing, which means that they will stay in place once applied to a package or parcel. This ensures that your packages are labeled correctly and that they arrive at their intended destination.

Our Shipping Labels can also be customized to include a company's branding and logo. This is a great way to increase brand awareness and ensure that your customers know where their package is coming from. Our labels can be customized to include a company's name, logo, and contact information.

In summary, our Shipping Label product is an essential tool for any business that ships products. They are available in two materials, paper or synthetic, and are customizable in size and branding. The labels utilize thermal or direct thermal printing technology, ensuring that they are of high quality and cost-effective. The labels have a permanent adhesive backing, which ensures that they stay in place once applied. Our Shipping Labels are perfect for labeling packages, parcels, and custom dispatch labels.

Features:

Product Name: Shipping label

Durability: Water-resistant, Tear-resistant

Size: Typically 4 Inches By 6 Inches (standard Size) And Customizable

Adhesive: Permanent Adhesive Backing

Global Applicability: Compliance With International Shipping Standards And Postal Requirements

Label Type	Shipping label

Strong adhesion guarantees
that the label will not
fall off

Suitable for Multiple
Packages

Applications:

The Hanbu Shipping Label is a versatile product that can be used in a variety of occasions and scenarios. It is a must-have for any business that deals with shipping and logistics. The label is made in China and is certified with ISO9001, ROHS, and CE. The minimum order quantity is 1, and each roll comes with a plastic bag package. The delivery time is 4 - 8 working days, and payment terms include L/C, T/T, Western Union, and MoneyGram.

The Hanbu Shipping Label is designed to be user-friendly and compatible with standard printing equipment. It can be printed using thermal or direct thermal printing technology, depending on your preference. The label is typically 4 inches by 6 inches in size, which is the standard size for package labels. However, it can be customized to suit your specific needs.

The Hanbu Shipping Label contains several information fields, including the sender's address, recipient's address, tracking barcode, shipping method, and possibly other custom fields. This makes it easy for you to identify and track your packages throughout the delivery process.

The Hanbu Shipping Label is available in two materials: paper and synthetic. The paper label is recyclable, making it an environmentally friendly option. The synthetic label, such as polypropylene, is more durable and tear-resistant, making it ideal for packages that will be exposed to harsh conditions.

The Hanbu Shipping Label is perfect for a wide range of applications, including e-commerce, retail, manufacturing, and logistics. It can be used as a package label, delivery label, and more. Whether you are shipping products domestically or internationally, the Hanbu Shipping Label is an essential tool for ensuring that your packages arrive at their destination on time and in good condition.
