Product Description

Customized Release Paper 2x3 3x5 Export Carton Packing Warning Adhesive Labels Fragile Stickers

Product Description:

Our self-adhesive warning symbols labels are made from high-quality paper material, ensuring a durable and long-lasting product. The self-adhesive feature makes it easy to apply the label to any surface, allowing for quick and efficient labeling of potential hazards and dangers. These alert tags are perfect for use in a variety of settings, including workplaces, public areas, and homes.

At our factory, we have over 15 years of experience in producing high-quality warning symbols labels and alert tags. Our team of experts is dedicated to ensuring that each product is manufactured to the highest standards of quality and reliability. We use only the best materials and production methods to ensure that our products meet your expectations and requirements.

Our warning symbols labels are designed to be used in a variety of situations, including marking hazardous materials, warning of potential dangers, and providing instructions for safe use. The labels are suitable for both indoor and outdoor use, making them ideal for a range of applications.

When it comes to safety, there is no compromise. That's why our warning symbols labels are the perfect solution for ensuring that you and those around you are informed and protected. Choose from our custom color options, and trust in our high-quality, self-adhesive label design to keep you safe and secure.

Product Application Occasions and Scenarios for Hanbu Warning Label

Hanbu is a brand of self-adhesive warning labels that are manufactured in China. These labels carry the certifications of ISO9001, ROHS, and CE. The minimum order quantity for Hanbu warning labels is one, and each roll comes with plastic bag packaging. Delivery time is between four to eight working days, and the payment terms accepted are L/C, T/T, Western Union, and MoneyGram. The color of the warning labels is customizable, and they carry bold font to make them easily visible. The adhesive type used in Hanbu warning labels is permanent, making them long-lasting and reliable.

The Hanbu warning labels are applicable in a wide range of scenarios and occasions. For instance, they can be used to warn people of potential hazards in workplaces, including factories and construction sites. The labels can be used to warn people of the dangers of operating machinery or equipment. Adhesive warnings can help prevent accidents and injuries by clearly indicating where people should not stand or where they should wear protective gear. The labels can also be used in warehouses and storage facilities to warn people of the contents of containers and storage areas.

Another scenario in which Hanbu warning labels can be applied is in the automotive industry. The labels can be used as machinery warning decals, warning drivers and passengers of potential hazards. They can also be used to indicate where certain fluids should not be placed or where certain parts should not be touched.

The Hanbu warning labels are waterproof, making them ideal for use in outdoor scenarios. They can withstand harsh weather conditions and are not affected by water or moisture. This feature makes them suitable for use in marine environments, where exposure to water is frequent.

In conclusion, the Hanbu warning labels are versatile and useful in a wide range of scenarios. Their waterproof and permanent adhesive nature makes them reliable and long-lasting, while their bold font and customizable color make them easily visible. They can be used in workplaces, warehouses, storage facilities, and in the automotive industry as machinery warning decals. Their application can help prevent accidents and injuries by clearly indicating potential hazards.
