Product Description

Eco Friendly And Durable Thermal Shipping Labels

Product Description:

Our Shipping Labels are high resolution labels that are perfect for clear barcode scanning. These labels are ideal for businesses and individuals who need to ship packages and want to ensure that their packages are sorted, tracked, and delivered by shipping carriers such as USPS, FedEx, and UPS.

Our Shipping Labels are designed to be environmentally friendly. They may use recyclable materials or be designed to reduce environmental impact. This means that our customers can rest easy knowing that they are doing their part to protect the environment while still getting the job done.

Our Shipping Labels use either thermal or direct thermal printing technology, depending on our customers' needs. This ensures that the labels are printed clearly and are easy to read, making it easier for shipping carriers to sort and deliver packages efficiently.

Our Shipping Labels are highly customizable. They can be customized with logos, special instructions, or additional information as needed. This means that our customers can create labels that are tailored to their specific needs, making it easier for shipping carriers to identify and handle their packages.

In summary, our Shipping Labels are high resolution labels that are designed to help our customers sort, track, and deliver packages with ease. They are environmentally friendly, highly customizable, and use either thermal or direct thermal printing technology. Whether you're shipping packages for personal or business reasons, our Shipping Labels are the perfect choice for you.

Features:

Size:	Typically 4 Inches By 6 Inches (standard Size) And Customizable
Global Applicability:	Compliance With International Shipping Standards And Postal Requirements
Environmental Characteristics:	May Use Recyclable Materials Or Be Designed To Reduce Environmental Impact

Strong adhesion guarantees
that the label will not
fall off

Suitable for Multiple
Packages

Applications:

Hanbu Shipping Labels are perfect for environmental labels that need to adhere to international shipping standards and postal requirements. The labels are made from paper or synthetic materials, such as polypropylene, and are compliant with ISO9001, ROHS, and CE certifications.

Each roll of Hanbu Shipping Labels comes with plastic bag packaging for easy storage and protection. The labels provide a high resolution for clear barcode scanning, making them ideal for a wide variety of logistics and supply chain management applications. With a minimum order quantity of 1, Hanbu Shipping Labels are perfect for small businesses and large corporations alike. Delivery time is typically 4 - 8 working days, and payment terms include L/C, T/T, Western Union, and MoneyGram.

Hanbu Shipping Labels are compatible with both thermal and direct thermal printing technologies, making them versatile and easy to use for a wide variety of applications.

In conclusion, Hanbu Shipping Labels are a high-quality product that is perfect for environmental labels, logistics, and supply chain management. With their global applicability and compliance with international shipping standards, these labels are a must-have for any business that needs to ship products domestically or internationally.
