Product Description

Smart Label Printer Thermal Label Printer Shipping Label Printer Express Warehouse Use

Product Description:

The Barcode printer is designed to work with a wide range of media types, including self-adhesive labels, non-adhesive tags, and continuous paper. The maximum paper size that this printer can handle is 118mm, which makes it suitable for a variety of applications, including shipping labels, product labeling, and asset tracking.

One of the most significant advantages of the Color barcode printer is its ease of use. The printer features a simple and intuitive interface that allows users to set up and print labels quickly and easily. The printer is also lightweight, weighing in at just 2.1kg, which makes it easy to move around and position in any workspace.

In addition to its high-quality printing capabilities, the Barcode printer is also designed to be durable and reliable. The printer is built to withstand frequent use and is capable of printing thousands of labels per day without any issues. The printer also features a range of connectivity options, including USB, Ethernet, and serial ports, which make it easy to integrate into any existing system.

Overall, the Color barcode printer is an excellent choice for any business that requires high-quality, reliable, and easy-to-use label printing.

With its direct thermal and thermal transfer printing capabilities, the printer is capable of producing crisp and clear labels at a speed of 127mm/s in black. The printer is also versatile, capable of handling a wide range of media types and sizes, making it suitable for a variety of applications. If you're looking for a reliable and versatile barcode printer, the Color barcode printer is an excellent choice.

Features:

Product Name: Barcode label printer

Max Paper Size: 118mm

Paper Load: Easy Paper Loading

Paper Width: 20mm 82mm
