108mm High Speed Barcode Label Printer With 203/300 DPI Resolution

Product Description:

The barcode printer boasts a printing width of 108mm, which makes it ideal for printing labels for various products in different sizes. The paper width ranges from 20mm to 82mm, which provides you with a wide range of options to choose from. The roll external of this printer is MAX 80mm, which means that you can print a lot of labels before you need to change the paper roll. The maximum paper size of this printer is 118mm, which enables you to print larger labels that contain more information.

This barcode printer is perfect for generating thermal labels. Thermal labels are ideal for printing barcodes and QR codes because they produce high-quality, durable labels that are resistant to smudging, fading, and tearing. Moreover, thermal labels are easy to read and scan, which makes them the preferred option for many businesses.

The thermal barcode printer is easy to use and maintain. It comes with a user-friendly interface that allows you to customize your labels and set up your printer in no time. The printer is also easy to maintain, thanks to its durable construction and simple design. You can easily replace the paper roll or print head when needed, which ensures that you always have a functional barcode printer.

In conclusion, if you are looking for a high-resolution barcode printer that is easy to use, reliable, and produces high-quality thermal labels, then this thermal transfer printer is the perfect choice for you. With its wide range of paper width options, maximum paper size, and durable construction, this QR code printer is designed to meet the demands of any industry. So why wait? Order your thermal barcode printer today and start printing high-quality labels that will make your business stand out!

Features:

Product Name: Barcode label printer

Style: Thermal Transfer

Paper Width: 20mm 82mm

Print Resolution: 203 Dpi, 300 Dpi

Product Type: Direct Thermal/thermal Transfer Printer

Weight: 2.1kg

Our Barcode label printer is a versatile thermal transfer printer that is perfect for printing barcode labels. With a paper width of 20mm 82mm and a print resolution of 203 Dpi or 300 Dpi, this portable barcode printer is perfect for printing a wide range of labels. Whether you need a thermal transfer printer for your small business or a larger enterprise, our Barcode label printer is the perfect choice.

Technical Parameters:

Applications:

This barcode printer is ideal for printing barcode labels, tickets, and tags in various industries such as manufacturing, healthcare, retail, logistics, and transportation. It can be used in a wide range of applications such as inventory management, shipping, and receiving, asset tracking, and product labeling.

The Hanbu Barcode printer is perfect for businesses that require an efficient and reliable barcode printer. With its 203 Dpi and 300 Dpi print resolution, it produces high-quality prints that are easy to read and scan. The printer uses Thermal label type, which means that it is

suitable for creating labels that do not require ink or toner.

This Barcode printer is lightweight, weighing only 2.1kg. It is easy to move around and can be placed on any desk or shelf without taking up too much space. The printer comes with packaging details that include each roll with plastic bag packaging, which ensures that the labels are safe and protected during transportation.

With a minimum order quantity of 1 and a delivery time of 4 - 8 working days, businesses can get their hands on this Barcode printer quickly and without any hassle. Payment terms such as L/C, T/T, Western Union, and MoneyGram make it easy for businesses to purchase this product.

In conclusion, the Hanbu Barcode printer is a reliable, efficient, and cost-effective solution for businesses that require high-quality barcode labels. It is perfect for businesses that need a barcode printer that is easy to use, produces high-quality prints, and is affordable. This product can be used in conjunction with a 2D Barcode Scanner and Thermal printer to create a complete barcode printing solution for businesses of all sizes.
