Ribbon Length	100 Meters

DISTINGUISH THE RIBBON:

Applications:

Hanbu Printer Ribbons are perfect for use in a variety of different applications, including barcode printing and other industrial labeling applications. The smooth surface compatibility of these ribbons ensures that they are compatible with a wide range of different materials, including paper, polyester, and polypropylene.

The core diameter of these ribbons is 1 inch, making them easy to use with most standard printers. The black color option is perfect for printing clear, crisp text and barcodes, while the ability to create custom colors ensures that you can always find the perfect match for your branding needs.

Hanbu Printer Ribbons are designed using Wax-Resin technology, which provides a highly durable print that is resistant to smudging, fading, and other types of damage. This technology ensures that your labels will remain legible and professional-looking, even under the harshest conditions.

When you order Hanbu Printer Ribbons, you can expect fast and reliable delivery within 4-8 working days, with a minimum order quantity of just 1 roll. Each roll comes with plastic bag packaging, ensuring that your ribbons remain in perfect condition throughout the shipping process.

Payment is easy and convenient, with options including L/C, T/T, Western Union, and MoneyGram, ensuring that you can choose the method that works best for your business.

In summary, Hanbu Printer Ribbons are the perfect choice for customers who require custom printed ribbon that is durable, precise, and reliable. Whether you are printing barcodes, labels, or other types of industrial signage, these ribbons are sure to meet your needs and exceed your expectations.
