Product Description

Factory Direct Supply High Quality Long Life Warning Sticker Dangerous Sticker Warning Label

Product Description:

Each package contains 1 roll of GHS (Globally Harmonized System) compliant labels, which are designed to meet international standards for toxic chemicals labeling. With a signal word of Danger and printed text that includes the name of the chemical, health hazards, flammability, reactivity, personal protective equipment, first aid, and emergency contact information, these labels provide all the necessary information to ensure that your employees and emergency responders are aware of the hazards associated with the material.

These labels are essential for any business that deals with hazardous chemicals. Not only do they ensure compliance with international labeling standards, but they also provide critical information in case of an emergency. In the event of a spill or other incident involving hazardous materials, emergency responders need to be able to quickly identify the material and take appropriate action. With our Hazardous Chemicals Labels, you can rest assured that your materials are properly labeled and that emergency responders have the information they need to respond quickly and effectively.

Order your Hazardous Chemicals Labels today and ensure that your business is compliant with international labeling standards and prepared for any emergency.

Applications:

These labels are suitable for use in a variety of settings, including industrial facilities, laboratories, and workplaces where hazardous chemicals are used or stored. They are ideal for labeling containers, bottles, drums, and other packaging materials that contain hazardous materials.

Hanbu Hazardous Chemicals Labels are manufactured in China and are certified to meet ISO9001, ROHS, and CE standards. Each roll contains 100 labels and is packaged in plastic bags for easy storage and transport.

The labels are available in standard colors of red, black, and white, or custom colors to meet specific needs. They are also waterproof and resistant to chemicals, ensuring that the label remains visible and legible, even in harsh conditions.

The labels comply with OSHA and ANSI standards for hazardous communication, which makes them suitable for use in the United States.

The labels are designed to provide clear and concise information about the nature of the hazard, the precautions that should be taken, and the appropriate response in case of exposure or accidents.

Hanbu Hazardous Chemicals Labels are essential for protecting individuals and the environment from the dangers of hazardous substances. They are easy to use, durable, and reliable, making them an excellent choice for anyone who needs to label and identify hazardous materials.

The minimum order quantity for Hanbu Hazardous Chemicals Labels is one roll, and delivery time is 4-8 working days. Payment terms include L/C, T/T, Western Union, and MoneyGram, making it easy to purchase and receive the labels.
