Product Description

Hazard Class 2 Labels Class 2 Non-Flammable Gas Symbol Dangerous Goods Shipping Label

Product Description:

The labels feature the signal word "Danger" prominently, ensuring that anyone in the vicinity is immediately aware of the potential risk. The printed text includes all the necessary information, such as the name of the chemical, health hazards, flammability, reactivity, personal protective equipment, first aid, and emergency contact information, providing all the necessary information to anyone who may come into contact with the chemical.

Measuring 4 inches by 6 inches, these Chemical Storage Labels are the perfect size for any container or storage area. One roll includes multiple labels, making it easy to label all of your hazardous chemical containers and storage areas. The labels are waterproof and resistant to chemicals, ensuring that they remain legible and effective even in harsh environments.

Don't take chances with hazardous materials in your workplace - make sure to clearly label them with our Hazardous Chemicals Labels. Order your roll today and ensure the safety of everyone in your facility.

Applications:

These labels are designed to withstand harsh conditions, as they are waterproof and resistant to chemicals. They comply with OSHA and ANSI standards, ensuring that they meet all regulatory requirements for hazardous chemical labeling. The printed text includes information on the hazardous chemical, health hazard, flammability, reactivity, personal protective equipment, first aid, and emergency contact information.

The Hanbu Hazardous Chemicals Labels are ideal for use in various occasions and scenarios, including:

Poisonous elements tags - these labels can be used to identify and label containers of poisonous chemicals to prevent accidents and ensure proper handling and disposal.

Chemical Hazard Labels - these labels can be used to identify and label containers of hazardous chemicals in the workplace, ensuring that employees are aware of the potential risks and can take appropriate precautions.

Reactive Chemical Labels - these labels can be used to identify and label containers of reactive chemicals, warning employees of the potential dangers and ensuring that they are handled and stored correctly.

Overall, the Hanbu Hazardous Chemicals Labels are an essential tool for any workplace that deals with hazardous chemicals. With their durability, compliance with regulatory standards, and clear printed text, these labels provide the necessary information and warnings to keep employees safe and prevent accidents. Order yours today and ensure the safety of your workplace!
