Product Description

Matt PET Silver Synthetic Label Self Adhesive Paper PET Silver Barcode 4x6 PET Label Stickers

Product Description:

Our PET labels are made from durable polyethylene terephthalate (PET) material, which makes them perfect for use in a variety of applications, including beverage bottles, cosmetics, and more. The PET material is not only strong and durable, but it also provides excellent chemical resistance, making it resistant to solvents and other harsh chemicals.

In addition to its chemical resistance, our PET label product also features a high-quality acrylic adhesive that ensures a strong and lasting bond to your products. Whether you're labeling bottles, jars, or other containers, our PET label product will provide a secure and reliable label that won't peel or fade over time.

Our PET label rolls and sheets are available in a range of sizes and configurations to meet your specific needs. Whether you need a large roll for high-volume production or smaller sheets for individual products, we have the perfect solution for you.

So if you're in need of a high-quality PET label for industrial use, look no further than our premium PET label product. With its durable PET material, strong acrylic adhesive, and excellent chemical resistance, our PET label product is the perfect choice for all your labeling needs.

Features:

PET Label

Resistant to solvents: Smooth

Color: Silver

Label Material: PET or Polyester

Temperature Resistance: -20°C to 80°C

Application: Beverage Bottles, Cosmetics, etc.

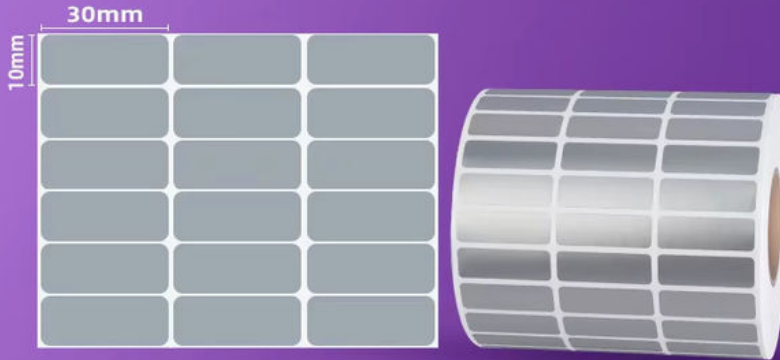

Our PET Label is produced using high-quality PET label material, ensuring durability and resistance to solvents. It has a smooth finish and is available in a silver color. With temperature resistance ranging from -20°C to 80°C, it is suitable for various applications such as beverage bottles, cosmetics, and more.

Technical Parameters:
