Self-Adhesive Gloss Polyester Mat Silver Barcode PET Labels Sticker

Product Description:

In addition to its adhesive properties, our PET Label product also boasts impressive temperature resistance. It can withstand temperatures ranging from -20°C to 80°C, making it suitable for use in a variety of environments. Whether you need a label for indoor or outdoor use, our PET Label product has got you covered. Its excellent performance in extreme temperatures makes it a popular choice for automotive and other industrial applications.

Another key attribute of our PET Label product is its chemical resistance. It is resistant to solvents, making it an ideal choice for use in pharmaceuticals and other industries where harsh chemicals are present. Our PET Label product is designed to withstand exposure to a wide range of chemicals, ensuring that it remains intact and legible even in challenging environments.

The release liner of our PET Label product is made from silicone-coated paper. This release liner is designed to ensure that the label can be easily removed and applied to the desired surface. It is an essential component of our PET Label product, ensuring that the label is easy to work with and can be applied accurately. The release liner is also designed to protect the label during transport and storage, ensuring that it arrives at its destination in perfect condition.

Our PET Label product is available in a silver color, making it an ideal choice for a wide range of applications. The silver color is both professional and versatile, making it a popular choice for automotive and other industrial applications. Whether you need a label for branding or informational purposes, our PET Label product is an excellent choice.

In conclusion, our PET Label product is an excellent choice for anyone looking for a high-quality label that is suitable for use in a wide range of applications. Whether you need a label for automotive or pharmaceuticals, our PET Label product is an excellent choice. As one of the leading PET label suppliers, we take pride in providing our customers with a high-quality product that meets their needs. Contact us today to learn more about our PET Label product and how it can benefit your business.

Features:

Product Name: PET Label
Temperature Resistance: -20°C To 80°C
Chemical Resistance: Resistant To Solvents
Release Liner: Silicone Coated Paper
Adhesive Type: Acrylic
Resistant to solvents: Smooth

Our PET Label product offers a wide range of customization options for your labeling needs. Whether you require PET label sheets for food packaging or for industrial applications, our labels are designed to withstand extreme temperatures and chemical exposure, making them a reliable choice for any industry. The release liner is made of silicone coated paper and the adhesive is acrylic, ensuring a strong and secure bond. Additionally, our PET labels are resistant to solvents, providing a smooth and durable labeling experience.

Technical Parameters:

Product Attribute	Value
Material	PET (Polyethylene Terephthalate)
Finish	Matte
Release Liner	Silicone Coated Paper
Label Material	PET or Polyester
Temperature Resistance	-20°C to 80°C
Shape	Rectangular
Resistant to solvents	Smooth
Color	Silver
Adhesive Type	Acrylic
Customization	Available

Free design and personalized customization

Customizable printing of any specification, size, shape, and content

Good quality, more durable

Strong adhesive, tear resistant, waterproof and oil resistant, and resistant to high temperatures for longer storage time

Strong adhesion

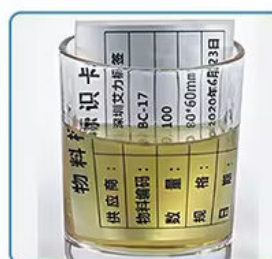

Unable to tear apart

scratch resistance

Waterproofing

Oil proof

Applications:

Our PET label rolls are made of high-grade PET or polyester material that is durable and resistant to solvents. Each roll comes with a silicone coated paper release liner for easy application. Our PET label is certified by ISO9001, ROHS, and CE, ensuring that our products meet international quality standards.

Our PET label is perfect for labeling beverage bottles, cosmetics, and other products. It is particularly useful for labeling food products as it is made of food-grade material that is safe for food contact. Our PET label is also resistant to water and oil, ensuring that the label remains intact even in harsh environments.

Our PET label is available in various sizes and shapes to suit different product needs. Our minimum order quantity is just one roll, making it easy for our customers to order just the amount they need. Each roll comes with plastic bag packaging to ensure that the label remains clean and protected during transportation.

Our delivery time is between 4-8 working days and we accept various payment methods including L/C, T/T, Western Union, and MoneyGram.

Choose Hanbu PET label for your labeling needs and experience the quality and versatility of our product.
