

## Packaging Synthetic Label Paper Sticker Roll Round Circle Waterproof

### Our Product Introduction

for more products please visit us on [hanbutech.com](http://hanbutech.com)

#### Basic Information

- Place of Origin: China
- Brand Name: Hanbu
- Certification: ISO9001,ROHS,CE
- Minimum Order Quantity: 1
- Packaging Details: Each roll with plastic bag package
- Delivery Time: 4 - 8 working days
- Payment Terms: L/C, T/T, Western Union, MoneyGram

#### Product Specification

- UV Resistance: Resistant To Fading And Deterioration Caused By UV Light Exposure
- Thickness: Generally Thicker Than Paper Labels, Providing Added Durability
- Color: White
- Material Composition: Made From Synthetic Materials Such As Polypropylene, Polyester, Vinyl, Or Similar
- Adhesive: Strong Adhesive Backing That Adheres Securely To Various Surfaces, Including Smooth And Uneven Surfaces
- Application Method: Can Be Applied Manually Or Using Labeling Equipment Depending On The Adhesive Type
- Adhesive Type: Permanent
- Material: Synthetic

Packaging Labels Roll Synthetic Paper Sticker Round Circle Waterproof

Product Description:

Our Synthetic Label features a strong adhesive backing that adheres securely to various surfaces, including smooth and uneven surfaces. The adhesive type is permanent, ensuring that the label remains in place and does not fall off easily. This makes our Synthetic Label ideal for use in harsh environments and conditions where traditional paper labels may not hold up.

Our Synthetic Label can be applied manually or using labeling equipment depending on the adhesive type. This makes it easy for businesses to integrate our label into their existing labeling processes and workflows. Whether you have a small or large labeling operation, our Synthetic Label can meet your labeling needs.

Our Synthetic Label is perfect for businesses that require labels that are durable, long-lasting, and resistant to harsh conditions. This includes businesses in the manufacturing, automotive, chemical, and industrial industries, among others. Our label is also perfect for businesses that require labels for outdoor use, as it is resistant to UV light and extreme temperatures.

In summary, our Tear-Resistant Synthetic Label is a high-quality label that is perfect for businesses looking for durable and long-lasting labels. Made from synthetic materials such as polypropylene, polyester, vinyl, or similar, our label is strong, tear-resistant, and waterproof. With a strong adhesive backing that adheres securely to various surfaces, our label can be applied manually or using labeling equipment depending on the adhesive type. If your business requires labels that are resistant to harsh conditions and outdoor use, our Synthetic Label is the perfect solution.

Features:

- Product Name: Synthetic Label
  - Type: Label
  - Material: Synthetic Material Labels
  - Thickness: Generally Thicker Than Paper Labels, Providing Added Durability
  - Durability: Highly Durable And Resistant To Tearing
  - UV Resistance: Resistant To Fading And Deterioration Caused By UV Light Exposure
  - Application Method: Can Be Applied Manually Or Using Labeling Equipment Depending On The Adhesive Type
- These Weatherproof Labels, also known as Polyester Labels, are perfect for harsh environments due to their synthetic material. They resist fading and tearing, and can be applied manually or with labeling equipment.

Technical Parameters:

Material Composition	Made From Synthetic Materials Such As Polypropylene, Polyester, Vinyl, Or Similar
Adhesive	Strong Adhesive Backing That Adheres Securely To Various Surfaces, Including Smooth And Uneven Surfaces
Color	White
Coating	Often Coated For Enhanced Durability And Protection
Adhesive Type	Permanent
Water Resistance	Resistant To Water And Moisture, Suitable For Outdoor Use
Application Method	Can Be Applied Manually Or Using Labeling Equipment Depending On The Adhesive Type
Thickness	Generally Thicker Than Paper Labels, Providing Added Durability
UV Resistance	Resistant To Fading And Deterioration Caused By UV Light Exposure
Durability	Highly Durable And Resistant To Tearing

### Applications:

Our Tear-Resistant Labels are ideal for use in harsh environments, such as warehouses, factories, and outdoor settings. They are resistant to fading and deterioration caused by UV light exposure, ensuring that the labels remain legible and effective for long periods of time.

Our Durable Labels are generally thicker than paper labels, providing added durability and resistance to wear and tear. They are perfect for use in applications where frequent handling or exposure to the elements may cause traditional paper labels to fail.

Our Synthetic Labels can be applied manually or using labeling equipment, depending on the adhesive type. They feature a permanent adhesive that ensures the labels will stay in place, even in demanding environments.

Each roll of our Synthetic Labels is packaged in a plastic bag, and we require a minimum order quantity of 1. Delivery time is typically 4-8 working days, and we accept payment via L/C, T/T, Western Union, and MoneyGram.
