Product Description

Product Description:

Custom Logo Barcode Label Printer OEM ODM Hanbu Thermal Label Printer

The printer uses thermal printing technology to produce high-quality prints that are smudge-free and long-lasting. This makes it suitable for use in a wide range of industries, from retail to healthcare. Whether you are looking for a direct thermal printer or a thermal transfer printer, this product is the answer to all your barcode printing needs.

This barcode printer is available in black and custom colors, giving you the freedom to choose a color that matches your branding. The printer also features Bluetooth connectivity, allowing you to print from your mobile device with ease. This makes it ideal for use in busy environments where time is of the essence.

The roll external for this printer is a maximum of 80mm, ensuring that you can print a large number of labels without having to change the roll frequently. This makes it an ideal choice for businesses that need to print a large number of labels in a short period of time.

In summary, our Thermal Transfer Printer is the perfect choice for anyone looking for a reliable and high-quality barcode printer. With easy paper loading, a maximum paper size of 118mm, and support for both direct thermal and thermal transfer printing, this product is the answer to all your printing needs. With Bluetooth connectivity and a maximum roll external of 80mm, this barcode printer is perfect for use in busy environments where efficiency is key. Get yours today and experience the difference.
