-Paper-

-Dumb silver paper-

-Thermal paper-

-Hangtags-

### Applications:

The Hanbu Barcode Label Printer is the perfect solution for printing barcode labels quickly and efficiently. It is designed to work with a

wide range of media sizes, with a paper width of 20mm to 82mm and a printing width of 108mm. This makes it an ideal choice for businesses that require printing of labels of different sizes.

The Hanbu Barcode Label Printer is a thermal transfer printer that can easily print high-quality labels with a resolution of up to 203 dpi. It is also a Direct Thermal Printer that can print without a ribbon, making it a cost-effective option for businesses that don't require color printing.

The Hanbu Barcode Label Printer is equipped with Bluetooth connectivity and can be connected easily to a mobile device or computer. This makes it a great option for businesses that require mobility and flexibility in their printing operations. It is also a Bluetooth barcode printer that can connect seamlessly with other Bluetooth-enabled devices.

The Hanbu Barcode Label Printer has a maximum external diameter of 80mm and comes packaged in a plastic bag. It has a minimum order quantity of 1 and has a delivery time of 4-8 working days. It accepts payment through L/C, T/T, Western Union, and MoneyGram.

In conclusion, the Hanbu Barcode Label Printer is a versatile printer that can be used in many application scenarios. It is a cost-effective solution for printing high-quality barcode labels and is equipped with Bluetooth connectivity for mobile printing. With its certifications and high-quality printing capabilities, the Hanbu Barcode Label Printer is a reliable and valuable asset to any business or organization.
