Ribbon Wax Black Resin Ribbon Thermal Transfer Ribbon 110mm*300m

Product Description:

Our Barcode Printer Ribbons are available in two color options: Black and Custom. These color options provide great versatility to our customers, allowing them to choose the color that best suits their printing needs. The custom color option allows our customers to customize their Printing Ribbons to match their brand colors or other specific requirements.

The Ribbon Width of our Printer Ribbons is 4 inches, making them suitable for a wide range of printing applications. This feature ensures that our Printing Ribbons are compatible with a variety of printers, providing our customers with flexibility in choosing the right ribbon for their needs.

Our Barcode Printer Ribbons are designed with two different Print Resolutions: 300 DPI and 600 DPI. This feature ensures that our Printing Ribbons produce high-quality prints that are clear and easy to read. The high DPI also allows for the printing of small and detailed text and graphics.

The Adhesive Strength of our Printer Ribbons is high, making them ideal for printing on a variety of surfaces. The high adhesive strength ensures that the Printing Ribbons adhere well to the surface and do not come off easily. This feature is particularly important for printing barcodes, as the barcode needs to be readable and scannable.

Our Barcode Printer Ribbons are of the Thermal Transfer type. This type of ribbon is designed to melt ink onto the printing surface, producing high-quality and long-lasting prints. Thermal Transfer Printing Ribbons are known for their durability and are an ideal choice for printing barcodes and labels.

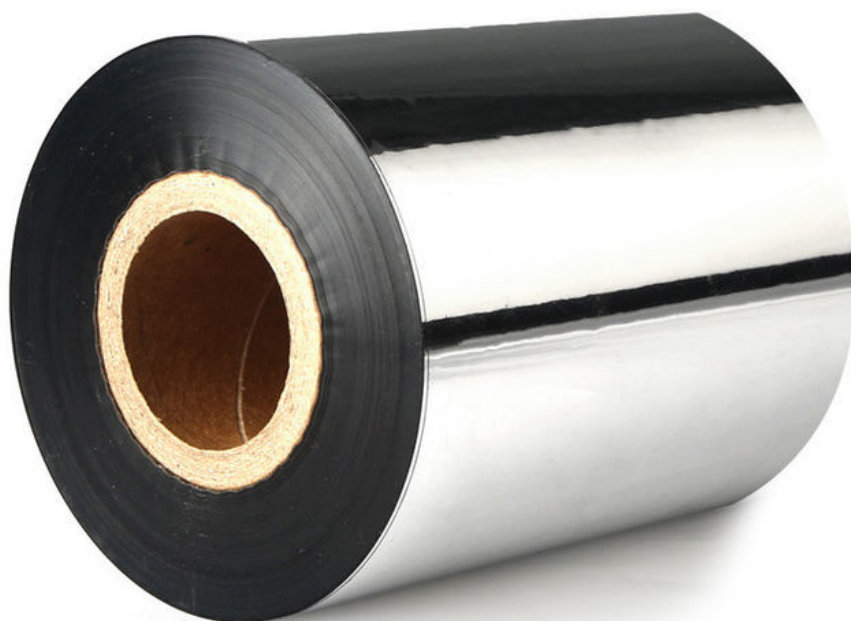

In conclusion, our Barcode Printer Ribbons are the perfect choice for any printing application. Our Printing Ribbons are available in two color options, have a ribbon width of 4 inches, come with two different print resolutions, and have a high adhesive strength. Additionally, our Printer Ribbons are of the Thermal Transfer type, ensuring that they produce high-quality and long-lasting prints. Choose our Barcode Printer Ribbons for all your printing needs and experience the difference in print quality and durability.

Applications:

Hanbu Printer Ribbons are a high-quality thermal transfer ribbon for printing barcodes, labels, and other thermal-sensitive materials. Our Printer Ribbons are manufactured in China with a focus on quality and durability. The product is certified with ISO9001, ROHS, and CE certification, ensuring that it meets the highest standards of quality control.

The Printer Ribbons are available in black and customizable colors, making them ideal for a wide range of printing applications. The ribbons are made using wax-resin print technology, which produces high-quality prints with excellent resolution and clarity. The ink used is high-density resin, which ensures that the prints produced are long-lasting and durable.

Our Printer Ribbons are suitable for use in a variety of industries. They are commonly used in the manufacturing, healthcare, retail, and logistics industries. The ribbons are ideal for printing barcodes, labels, and other thermal-sensitive materials. They are also suitable for use in printers that require high-quality and long-lasting prints.

The minimum order quantity for our Printer Ribbons is one roll. Each roll is packaged with a plastic bag package, ensuring that the ribbons are protected during shipping and handling. The delivery time for the ribbons is four to eight working days, and we accept L/C, T/T, Western Union, and MoneyGram as payment methods.

In conclusion, Hanbu Printer Ribbons are an excellent choice for companies looking for high-quality thermal transfer ribbons. The ribbons are durable, long-lasting, and suitable for a wide range of printing applications. They are available in black and customizable colors, and the minimum order quantity is only one roll.

Whether you need thermal transfer ribbons, ribbon rolls, or customizable ribbons, Hanbu Printer Ribbons have got you covered. Order now and enjoy our high-quality products and excellent customer service.
