- Packaging Details: Each roll with plastic bag package
- Delivery Time: 4 - 8 working days
- Payment Terms: L/C, T/T, Western Union, MoneyGram

Product Specification

- Resistance: Waterproof
- Printing Technology: Thermal Transfer
- Color: White
- Material: Paper Or Polyester
- Liner Type: Glassine
- Temperature Range: -20°C To 80°C
- Durability: Long-lasting
- Adhesive Type: Permanent
- Highlight: **Waterproof Thermal Transfer Labels,
Permanent Adhesive Thermal Transfer Labels,
Thermal Permanent Adhesive Label**

Product Description

Waterproof White Permanent Adhesive Thermal Transfer Labels

Product Description:

The Thermal Transfer Label boasts a Glassine liner type, which provides a smooth and consistent surface for printing. This liner type offers excellent resistance to moisture and heat, ensuring that your labels remain intact even in harsh environments. Additionally, the labels have a temperature range of -20°C to 80°C, making them suitable for use in a wide range of industries.

With a glossy surface finish, these Transfer-printed labels are sure to make your products stand out. The glossy finish enhances the colors of the label, making them more vibrant and eye-catching. This is especially important for businesses that rely on their products' visual appeal to attract customers.

The Thermal Transfer Label utilizes Heat Transfer Printing technology, which ensures that your labels have a high level of clarity and definition. The printing technology provides a durable, long-lasting print that won't fade or smudge over time. This is especially important for businesses that need their labels to remain legible for extended periods, such as food and beverage manufacturers.

These labels are designed for durability, making them ideal for use in demanding environments. The long-lasting labels ensure that your products remain properly labeled even in harsh conditions. This is especially important for businesses that operate in the manufacturing and industrial sectors, where labels must withstand exposure to chemicals, moisture, and other harsh elements.

In conclusion, the Thermal Transfer Label is the perfect solution for businesses that require high-quality, durable labels. With its Glassine liner type, temperature range of -20°C to 80°C, glossy surface finish, Heat Transfer Printing technology, and long-lasting durability, these labels are sure to meet all of your labeling needs.

Features:

Product Name: Thermal Transfer Label

Durability: Long-lasting

Resistance: Waterproof

Material: Paper or Polyester

Compatibility: Thermal Transfer

Temperature Range: -20°C to 80°C

Looking for high-quality heat transfer labels? Our Thermal Transfer Label product is the perfect solution. Made from durable paper or polyester material, these heat transfer labels are long-lasting and waterproof, ensuring that your labels stay in place and remain legible even in harsh environments. Designed for use with thermal transfer printers, these labels are compatible with a wide range of applications and can withstand temperatures ranging from -20°C to 80°C. Whether you need to label products in a warehouse, mark equipment in a manufacturing facility, or organize inventory in a retail setting, our heat transfer label material is up to the task. Order yours today!

Applications:

The Hanbu Thermal Transfer Labels are perfect for a wide range of applications, including product labeling, inventory management, shipping labels, and more. They are also ideal for use in the healthcare industry, where they can be used to label medical equipment and supplies.

The labels are long-lasting and durable, ensuring that your labels will remain intact and legible for an extended period. They are customizable, allowing you to print labels in any size you need. The packaging type is a roll, with each roll packaged in a plastic bag to ensure the labels stay clean and organized during transportation and storage.

The liner type of these labels is glassine, which is perfect for use in digital printing heat transfer paper. This liner type ensures that the labels remain flat and smooth during printing, preventing any wrinkles or creases from forming. The minimum order quantity for these labels is one, making them ideal for small businesses or individuals who need a small number of labels.

Ordering Hanbu Thermal Transfer Labels is easy, with delivery times ranging from 4 to 8 working days. Payment terms include L/C, T/T, Western Union, and MoneyGram, ensuring that you can choose the payment method that works best for you. So, whether you need transfer printing labels for your business or personal use, Hanbu Thermal Transfer Labels are the perfect solution.
