Product Description:

With its vibrant orange, purple, blue, and green color options, the Mobile Terminal is not only functional but also stylish. It is perfect for businesses that want to inject some personality into their POS system.

One of the standout features of this Android smart POS terminal is its lightning port charging port. The lightning port is a fast, efficient, and reliable charging port that ensures your terminal is always ready to go when you need it.

The Mobile Terminal comes in three storage capacity options: 32GB, 64GB, and 128GB. This means that businesses can choose a storage capacity that works best for their needs. Whether you need to store a lot of data or just a little, the Mobile Terminal has you covered.

Overall, the Mobile Terminal is a reliable and efficient Android mobile data terminal that is perfect for businesses of all sizes. Its vibrant color options, capacitive five-point touch screen, lightning port charging port, and storage capacity options make it a standout option in the market.

Features:

Product Name: Mobile Terminal
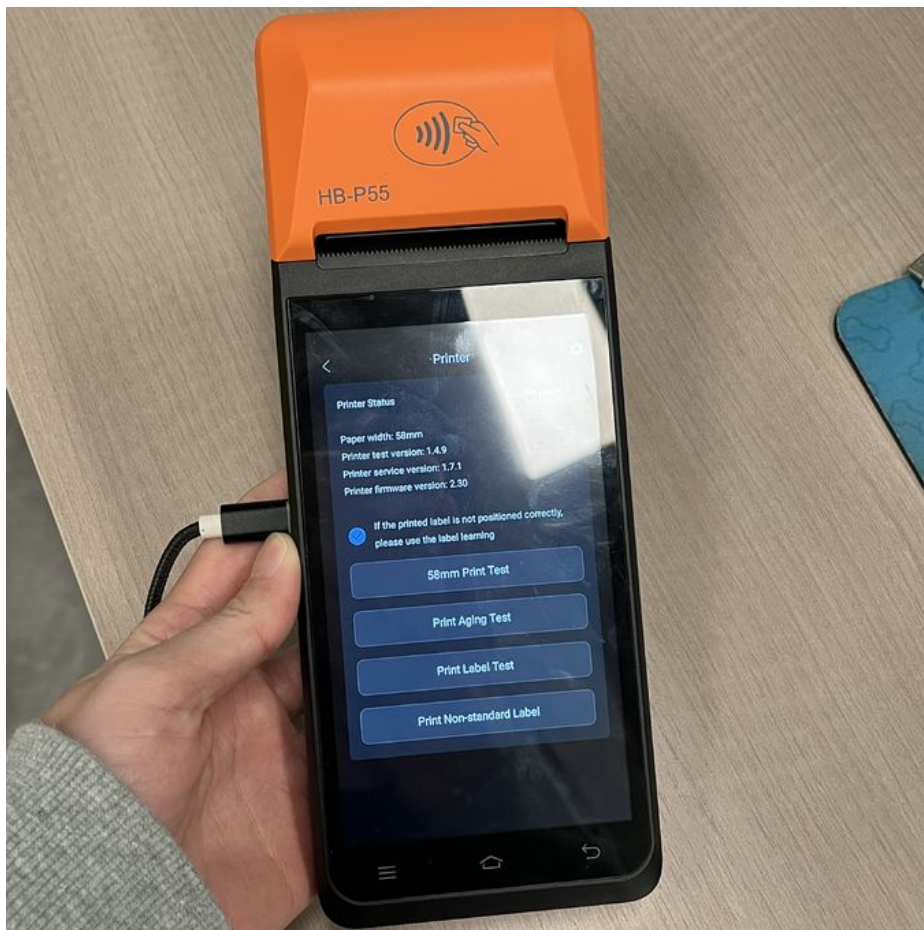

Resolution: 720*1280 IPS

Ram: 3GB

SIM Card: Dual SIM

Charging Port: Lightning Port

Our Mobile Terminal is the perfect solution for your handheld data terminal needs. It is an Android handheld terminal that can be used as an Android POS Terminal. With its high-resolution 720*1280 IPS display, you can easily view and interact with your data. It also has a powerful 3GB RAM that can handle multiple applications at once. The 12MP wide-angle and telephoto cameras make it easy to capture clear and detailed images. It also comes with dual SIM support, allowing you to use two SIM cards simultaneously. Charging is also convenient with its lightning port.

Charging Port	Lightning Port
Wireless Connectivity	Wi-Fi/Bluetooth/NFC
SIM Card	Dual SIM

Applications:

One of the standout features of the P55 is its high-resolution 720*1280 IPS display, which provides crisp, clear visuals even in bright light. This makes it a great choice for applications such as point-of-sale (POS) terminals and inventory management systems, where accuracy and clarity are essential.

The P55 is also equipped with 3GB of RAM and storage capacities ranging from 32GB to 128GB, allowing it to handle even the most demanding applications with ease. And with its Android 12 or 13 operating system, it offers a familiar and intuitive user experience that is easy to navigate and customize.

The P55 is available in a range of vibrant colors, including orange, purple, blue, and green. This makes it a great choice for businesses that want to add a splash of color to their operations, or for individuals who want a device that reflects their personal style.

The P55 is CE and ROHS certified, ensuring that it meets the highest standards of safety and quality. And with a minimum order quantity of just one unit, it is easy to get started with the P55 no matter what your needs may be. Plus, with a delivery time of just 5-7 days, you won't have to wait long to put the P55 to work for you.

Overall, the Hanbu P55 Mobile Terminal is a versatile and reliable Android handheld terminal that is well-suited for a wide range of applications. Whether you need a POS terminal for your retail business or a logistics management system for your warehouse, the P55 has the features and capabilities you need to get the job done.
