Product Description:

The Handheld POS supports multiple connection methods, including USB, Bluetooth, NFC, Wifi, and 4G. This makes it easy to connect to your existing systems and devices, and ensures that you can process transactions quickly and efficiently. The Bluetooth POS Machine is particularly useful for businesses that require wireless connectivity, as it allows you to connect to other devices without the need for cables or wires.

The Android POS System is designed with a large 5.99-inch screen, which provides ample space for you to view and manage your transactions. The screen is also equipped with Capacitive Five-Point Touch technology, which allows you to navigate through your menus quickly and easily. This is particularly useful for businesses that require fast and accurate input of data.

The Handheld POS is also equipped with a powerful battery that can last for hours on a single charge. The battery capacity is 3.8V 6400mAh (7.6V 3200mAh), which provides ample power to run your device throughout the day.

In summary, the Handheld POS is an Android POS Machine that is designed to help small and medium-sized businesses process transactions quickly and efficiently. With its dual SIM card capability, multiple connection methods, large screen size, Capacitive Five-Point Touch technology, and powerful battery, it is an ideal choice for businesses that require a reliable and versatile POS system.

Applications:

The Hanbu P6 is equipped with the latest Android POS system, which means that it is not only easy to use but also highly customizable. It can be configured to meet the specific needs of your business, ensuring that you have the tools you need to streamline your operations and improve your bottom line.

One of the key features of the Hanbu P6 is its dual SIM card capability. This means that you can use it to connect to multiple networks, ensuring that you always have a reliable connection when you need it. In addition, the P6 comes in either 16G or 64G storage options, providing ample space for your business needs.

The Hanbu P6 is perfect for a range of application occasions and scenarios. For example, it can be used in retail stores, restaurants, and other businesses that require a point-of-sale system. It can also be used in logistics and transportation, healthcare, and other industries that require a mobile data collection and processing solution.

With its CE and ROHS certification, you can be sure that the Hanbu P6 is a high-quality and safe product. It is also available for a minimum order quantity of 1, and delivery time is only 5-7 days, making it a great option for businesses that need a quick and reliable solution.

The Hanbu P6 is available in four colors, including black, orange, blue, and purple, allowing you to choose the one that best suits your business. Finally, with a battery capacity of 3.8V 6400mAh or 7.6V 3200mAh, you can be sure that it will last for hours on a single charge, ensuring that you can always stay connected and productive.

Overall, the Hanbu P6 is an excellent handheld POS terminal that is perfect for any business that needs a reliable and customizable point-of-sale solution. Whether you need it for retail, logistics, healthcare, or any other industry, the P6 is sure to meet your needs and exceed your expectations.

Customization:

We offer multiple connection methods for your convenience, including USB, Bluetooth, NFC, WiFi, and 4G. The printer output type is 58mm Thermal Paper, and the physical buttons include a Power Button *1, Vol +/- *1, and Scan *1.

The P6 model comes with either 3G or 4G memory and features a Capacitive Five-Point Touch Screen. This Android POS Machine is perfect for businesses that require a portable and reliable payment solution.
