Product Description

Product Description:

Thanks to its capacitive ten-point touch screen, the HB-P11 is highly responsive and accurate, making it perfect for use in busy environments where speed and efficiency are essential. This makes it ideal for use as a cash POS machine, helping to streamline transactions and make the checkout process quicker and more efficient.

One of the standout features of the HB-P11 is its NFC capabilities. With support for ISO/IEC 14443 Type A/B and Mifare 1, this tablet POS system can be used to accept payments from a range of mobile payment solutions, including Apple Pay and Google Wallet. This makes it an ideal choice for businesses looking to stay up-to-date with the latest payment technologies.

The HB-P11 is also highly versatile when it comes to connectivity. With built-in WiFi and Bluetooth support, this desktop tablet can be used to connect to a range of peripherals, including printers, scanners, and cash drawers. This makes it an ideal choice for businesses looking for a flexible and adaptable point of sale solution.

Whether you are running a small café or a large retail store, the HB-P11 is a reliable and effective choice for your point of sale needs. With its large touch screen, powerful processing capabilities, and versatile connectivity options, this tablet POS system is a great investment for any business looking to streamline their operations and improve their customer service.

Applications:

The Hanbu P11 is an Android POS PC that can be used in a variety of scenarios. With its sleek design and 11-inch screen size, it is perfect for use as an Android tablet in a variety of settings. From restaurants to retail stores, the Hanbu P11 is a versatile device that can be used as a handheld POS terminal or a stationary checkout system.

One of the main application occasions for the Hanbu P11 is in the restaurant industry. With its fast processing speed and 4GB RAM, it can handle multiple orders and payments at once. The device's NFC capabilities also make it easy to accept contactless payments, which is becoming increasingly popular in the industry. The Hanbu P11 can be used to take orders at the table, process payments, and even print receipts on the spot.

The Hanbu P11 is also perfect for use in retail stores. Its large screen size makes it easy to navigate through inventory and process transactions quickly. The device's WiFi and Bluetooth connectivity also make it easy to connect with other devices such as scanners and printers. The Hanbu P11 can be used as a stationary checkout device or a handheld POS terminal, making it a versatile device for any retail setting.

Another great application occasion for the Hanbu P11 is in the hospitality industry. The device can be used to check guests in and out of hotels, process payments, and even print receipts. Its sleek design and 11-inch screen size make it a great addition to any front desk or concierge desk.

In summary, the Hanbu P11 is a versatile Android POS PC that can be used as an Android tablet or handheld POS terminal in a variety of settings. Its fast processing speed, NFC capabilities, and WiFi and Bluetooth connectivity make it a great option for the restaurant, retail, and hospitality industries. With its CE and ROHS certifications, the Hanbu P11 is a reliable device that can be trusted to handle all your

business needs. The minimum order quantity is 1, and delivery time is 5-7 days. The Hanbu P11 is truly a device that can help streamline your business operations and improve your bottom line.
