Product Description

Product Description:

Running on the latest Android 12.0 operating system, our POS machine is equipped with advanced features that help you keep your business running efficiently. The system is user-friendly, making it easy to navigate and operate, which saves you time and effort.
Our POS machine comes with a powerful 1D/2D Bar Code Scanner (CMOS) that makes it easy for you to keep track of inventory and manage transactions. The scanner is fast and accurate, which means you can complete transactions quickly and accurately. This feature is especially useful for businesses that need to scan and track a large number of items.
The device is equipped with 3GB of RAM, which ensures that it runs smoothly and efficiently. For businesses that require more memory, we also offer a 4GB optional upgrade. The device also has 16GB of FLASH storage, which is perfect for storing transaction data and business files. We also offer a 64GB optional upgrade for businesses that require more storage space.
In summary, our Cash Register POS Machine is a powerful and reliable mobile POS device that is perfect for businesses of all sizes. Its user-friendly interface, powerful scanner, and fast data transfer make it easy to manage transactions and keep your business running smoothly. Whether you're a small business owner or a large corporation, our POS machine is the perfect solution for your business needs.

Applications:

With its powerful 8-Core SC9863 CPU, the Hanbu P11 is capable of handling even the most demanding POS applications. It comes with a capacitive ten-point touch screen that is responsive and accurate, providing a seamless user experience. The device also features a SIM card slot that supports both European and American bands, allowing it to work in different parts of the world.
The Hanbu P11 is perfect for a wide range of businesses, including retail stores, restaurants, cafes, and more. Its compact size and portability make it easy to carry around, allowing business owners to take it wherever they go. Its all-in-one design eliminates the need for additional hardware, saving space and reducing clutter on the counter.
Whether you need to process payments, manage inventory, or track sales, the Hanbu P11 is the perfect solution. Its Android 12.0 operating system provides a familiar and user-friendly interface that is easy to navigate. The device also comes with CE and ROHS certifications, ensuring that it meets the highest safety standards.
With a minimum order quantity of just one unit and a delivery time of 5-7 days, the Hanbu P11 is a highly accessible and practical solution for businesses of all sizes. Its display resolution of 800*1280 IPS incell 1200*1920 (optional) ensures that images and text are clear and easy to read, while its long battery life ensures that it can keep up with even the busiest of workdays.
In summary, the Hanbu P11 is an all-in-one POS solution that is perfect for a wide range of businesses. Its compact size, portability, and powerful performance make it an ideal choice for businesses that need a reliable and efficient POS system. Whether you're running a retail store, a restaurant, or a cafe, the Hanbu P11 is the perfect tool to help you manage your business operations seamlessly.
