## Product Description

### Product Description:

Powered by a 3GB RAM, this Handheld Mobile Pos Machine can handle multiple tasks effortlessly without slowing down. You can switch between applications seamlessly and carry out your business operations faster than ever before. Whether you are running a retail store, restaurant, or any other business that requires a reliable Point of Sale system, our Handheld Mobile Pos Machine is a perfect choice.

The Charging Port of this Handheld Data Terminal is a Lightning Port, which ensures faster charging times and increased efficiency. The Dual SIM feature allows you to use two different SIM cards simultaneously, which can be useful if you have multiple phone numbers or if you need to switch between networks for better service coverage.

Our Handheld Mobile Pos Machine comes in different Storage Capacity options, including 32GB, 64GB, and 128GB, so you can choose the one that suits your business needs. You can store all your business data, including product information, sales records, customer information, and much more.

In summary, our Handheld Mobile Pos Machine is a reliable and efficient GSM Wireless Terminal that can simplify your business operations and increase your productivity. With its Capacitive Five-Point Touch Screen, 3GB RAM, Lightning Port Charging, Dual SIM feature, and different Storage Capacity options, this Handheld Data Terminal is a perfect choice for any business that requires a reliable Point of Sale system.

Android Handheld Terminal	

### Applications:

The Hanbu P55 Mobile Terminal is a high-performance Android Smart POS Terminal that is perfect for a variety of different applications. With its handheld design and powerful capabilities, this device is an ideal choice for businesses looking to improve their operations and streamline their processes. Whether you are a retail store, restaurant, or logistics company, the P55 Mobile Terminal can help you simplify your operations and increase your productivity.

One of the key features of the P55 is its Capacitive Five-Point Touch screen, which makes it easy to navigate and use. The 720\*1280 IPS Resolution ensures that images and text are clear and easy to read, while the color options of Orange/Purple/Blue/Green give you the flexibility to choose a device that matches your branding or preferences.

The P55 runs on the Android 12/13 operating system, which provides users with a familiar and intuitive interface. This makes it easy to use and customize to meet your specific needs. The device is also CE and ROHS certified, ensuring that it meets the highest standards of quality and safety.

Whether you need to scan barcodes, take photos, or process payments, the P55 is up to the task. The device comes with a 12MP Wide-angle And Telephoto Cameras, making it easy to capture high-quality images and videos. It also has a built-in scanner that can read all types of barcodes, making it an ideal choice for retail and logistics applications.

The P55 is also designed to be durable and reliable, with a rugged construction that can withstand even the toughest environments. It has a long battery life, so you can use it throughout the day without worrying about running out of power. And with a delivery time of just 5-7 days and a minimum order quantity of just 1, it is easy to get your hands on this powerful handheld terminal PDA.

In summary, the Hanbu P55 Mobile Terminal is an ideal choice for businesses looking for an Android Smart POS Terminal that is easy to use, reliable, and packed with features. Whether you are in retail, hospitality, or logistics, the P55 can help you streamline your operations and improve your productivity.
