Product Description:

The tablet POS comes with 4GB RAM, which ensures smooth operation and faster processing of transactions. This feature makes it ideal for busy commercial environments where speed, accuracy, and efficiency are critical.

One of the standout features of this tablet POS is its NFC capabilities. It supports ISO/IEC 14443 Type A/B and Mifare 1, which means it can read and write to a wide range of NFC-enabled devices. This feature makes it perfect for businesses that need to process contactless payments or access control.

The Commercial Android Tablet POS is also CE/3CV certified, which means it meets the strict European safety, health, and environmental protection standards. This certification ensures that the tablet POS has undergone rigorous testing and quality control measures to ensure it is safe and reliable to use in commercial environments.

In summary, the Commercial Android Tablet POS is a highly versatile handheld POS terminal that is ideal for various commercial applications such as retail, restaurant, hospital, and hospitality. Its USB 2.0 (OTG) port, 4GB RAM, NFC capabilities, and CE/3CV certification are some of the features that make it stand out from other tablet POS systems in the market. Whether you are processing transactions, managing inventory, or monitoring employee performance, this tablet POS is a reliable and efficient tool that can help streamline your business operations.

Android POS Machine, All In One Touch POS, Android Touch Screen Tablet

Applications:

The Hanbu P11 Tablet POS is a cash register tablet that is designed for use in a variety of different settings. It is an Android POS PC that features a capacitive ten-point touch screen, making it easy to use and navigate. The device comes with a built-in WIFI module that supports both 2.4G and 5G 802.11 A/B/G/N, ensuring fast and reliable connectivity. Additionally, the P11 comes equipped with a USB 2.0 port, which allows for easy data transfer and connectivity with other devices.

The Hanbu P11 Tablet POS is perfect for use in retail settings. Its portable and handheld design makes it easy to take with you on the go, allowing you to conduct transactions anywhere in the store. The device is also ideal for use in restaurants, as it can be used to take orders, process payments, and print receipts all from one device. Additionally, the P11 can be used in hospitals and other healthcare settings, where it can be used to manage patient records and process payments. In the hospitality industry, the P11 can be used to manage reservations, process payments, and print receipts.

The Hanbu P11 Tablet POS is certified by CE and ROHS, ensuring that it meets the highest standards of quality and safety. It is manufactured in Guangdong and has a minimum order quantity of one. Delivery time is typically between 5-7 days, making it a convenient and reliable choice for businesses of all sizes.

The P11 also comes equipped with an NFC reader, which supports ISO/IEC 14443 Type A/B and Mifare 1. This makes it easy to process payments and manage transactions using contactless payment methods. Overall, the Hanbu P11 Tablet POS is a versatile and reliable device that is perfect for use in a variety of different settings. Whether you are running a retail store, restaurant, hospital, or hospitality business, the P11 is the perfect handheld POS terminal for all your needs.
