Product Description

Product Description:

The Handheld POS comes with a large 5.99" screen that displays everything clearly, making it easier for you to navigate. This screen size is perfect for showing customers their bill or for any other transaction-related information. Additionally, the 16G or 64G storage ensures that you can store all your important data and have it readily available whenever you need it.

The dual SIM card feature enables you to use two different SIM cards at once, making it perfect for businesses that require multiple networks. With this feature, you can stay connected to both your business and personal networks without any issue.

The 3G or 4G memory ensures that you can operate the Handheld POS seamlessly without any lag. This feature is perfect for businesses that require quick transactions and need to process multiple payments without any delay.

The All In One Touch POS is perfect for businesses of all sizes. Whether you are a small business owner or a large corporation, this Android POS Machine is perfect for your needs. It offers you everything you need to manage your transactions and keep your business running smoothly.

With the Handheld POS, you can easily manage your inventory, track your sales, and generate real-time reports. It is the perfect solution for anyone who wants to streamline their business processes and take their business to the next level.

So, what are you waiting for? Get your hands on the All In One Touch POS today and take your business to new heights!
