## Product Description

### Product Description:

The capacitive ten-point touch screen allows for quick and easy navigation, ensuring efficiency and accuracy when processing transactions. The 11-inch display provides ample space for displaying menus, orders, and other important information.

This POS system also features NFC technology, specifically ISO/IEC 14443 Type A/B and Mifare 1, allowing for contactless payments and other transactions. This feature is especially useful in today's world, where contactless transactions are becoming increasingly popular.

The Android 12 operating system provides users with a familiar and user-friendly interface, making it easy to use for both customers and employees. Plus, with the ability to download and install various apps from the Google Play Store, this POS system can be customized to fit the specific needs of any business.

In summary, the Desktop Tablets All In One Touch POS is the perfect Android POS system for businesses in the retail, restaurant, hospital, and hospitality industries. With its capacitive ten-point touch screen, NFC technology, and Android 12 operating system, this POS system is both efficient and user-friendly.

Application	Retail, Restaurant, Hospital, Hospitality
RAM	4GB
Storage	64GB
NFC	ISO/IEC 14443 Type A/B, Mifare 1

### Applications:

The Hanbu P11 has a built-in NFC technology that supports ISO/IEC 14443 Type A/B and Mifare 1, making it possible for businesses to use contactless payment methods. This feature is especially useful in the current pandemic situation since it reduces the need for physical contact during transactions.

The Hanbu P11 has a storage capacity of 64GB, which is more than enough for most businesses. It runs on the latest Android 12 operating system, making it fast and efficient. The P11 is also certified with CE and ROHS, ensuring that it meets the required standards for safety and environmental protection.

This Cash POS Machine is perfect for retail stores, restaurants, hospitals, and other hospitality industries. Its versatility and portability make it easy to move around and set up in different locations. The P11's compact design makes it perfect for businesses with limited space, as it takes up very little counter space.

The Hanbu P11 has a minimum order quantity of 1 and can be delivered within 5-7 days. Its quality and reliability make it a wise investment for any business looking to streamline their transactions and improve customer experience.

## Customization:

Our product, the Hanbu P11, is a commercial Android tablet that can be customized to fit your specific needs. As an Android handheld POS terminal, it is perfect for businesses of all sizes.

With its 11 inch screen, 4 core RK3562\*2.0GHz processor, and WiFi, Bluetooth, and NFC connectivity options, this tablet is both powerful and versatile. It also features a 2.4G/5G 802.11 A/b/g/n WIFI module and USB 2.0(OTG) port for added convenience.

Made in GUANGDONG and certified with CE and ROHS, our tablet can be purchased with a minimum order quantity of just 1 and delivered in 5-7 days.

Whether you need a desktop tablet or a portable solution, we offer product customization services to meet your specific requirements.

## Support and Services:

Our Tablet POS product comes with comprehensive technical support and services to ensure our customers have a seamless experience.

Our support team is available 24/7 via phone, email, or live chat to assist with any issues or questions that may arise.

We also offer on-site technical assistance for larger businesses and installations.

Our product comes with regular software updates to ensure optimal performance and security.

In addition, we offer training and education services to help our customers maximize the potential of our Tablet POS product.

## Packing and Shipping:

Product Packaging:

The Tablet Pos product will be packaged in a sturdy cardboard box with cushioning material to prevent any damage during shipping. The box will be labeled with the product name and specifications.

Shipping:

We offer fast and reliable shipping options for our customers. The Tablet Pos product will be shipped via a courier service and a tracking number will be provided to the customer upon shipment. Shipping rates will vary depending on the destination and speed of delivery chosen by the customer.
