Product Description

Google Play Store Supported Android POS with 3GB 16GB Memory and Capacities Five-Point Touch Screen

Product Description:

The Android POS Machine comes with a built-in printer that supports 58mm and 80mm paper sizes, allowing you to print receipts and invoices on-the-go. The printer is fast, efficient, and prints high-quality documents, ensuring that you can serve your customers quickly and without any hassles.

The 2.4-inch customer display is perfect for displaying product prices, promotions, and advertisements. The 320*240 resolution ensures that the display is clear and easy to read. The customer display enhances the overall customer experience and helps you promote your brand effectively.

Our Android POS Machine comes with a 2D scanner that supports 1D and 2D codes scanning. The scanner is fast and can scan barcodes and QR codes easily, making it ideal for businesses that require a quick and efficient scanning system.

The Capacitive Five-Point Touch screen provides a responsive and accurate touch experience, making it easy to input data and navigate through the system. The touch screen is intuitive and user-friendly, ensuring that you can operate the system with ease.

The 8-inch Pos devices are designed to be portable and lightweight, making them easy to move around. The system is compact and takes up minimal space, making it ideal for businesses with limited space. The Android POS Machine is easy to set up and operate, making it the perfect solution for businesses that require a fast and efficient system.

Overall, our Android POS Machine is an all-in-one solution for businesses that require a fast, efficient, and reliable system. The Dual Screen POS with an 8-inch screen size is perfect for businesses that require a large display screen and a compact system. The system comes with a built-in printer, a 2.4-inch customer display, a 2D scanner, and a Capacitive Five-Point Touch screen, making it the perfect solution for businesses that require an all-in-one system.

Applications:

Whether you're a small business owner or a large retailer, the P8 Android POS Terminal is the perfect tool to help you manage your sales, inventory, and customer data. With its built-in NFC card reader, you can easily accept all major credit and debit cards, making it easy for your customers to pay for their purchases.

One of the key benefits of the P8 Android POS Terminal is its portability. Because it's a handheld device, you can take it with you anywhere you go - whether you're at a trade show, a pop-up shop, or a customer's location. And with its 8 inch screen and 800*1280 IPS resolution, you can easily see your sales data and inventory levels, no matter where you are.

But the P8 Android POS Terminal isn't just portable - it's also powerful. With support for voice calls, data, WIFI, Bluetooth, and GPS, this device can handle all of your business needs. And because it's CE and ROHS certified and comes from Guangdong, you can trust that it's a high-quality device that will last for years to come.

Whether you're a retailer, a restaurant owner, or a service provider, the P8 Android POS Terminal is the perfect tool to help you manage your business. With a minimum order quantity of just one, and delivery time of 5-7 days, you can get started using this powerful tool right away.

So why wait? Order your P8 Android POS Terminal today and start taking your business to the next level!
