Product Description

Product Description:

The Android POS Portable Handheld Terminal is a perfect solution for businesses looking to streamline their checkout process. With an 8-inch 800*1280 IPS display, this Android Handheld POS Terminal provides a big screen for easy viewing of products and transactions. The high resolution also ensures that customers can easily see what they are purchasing, minimizing confusion and potential errors. The Android Handheld POS System is equipped with a powerful 3GB+16GB or 4GB+64GB memory, providing ample space for storing transaction data and other important information. The device's 2D scanner is capable of scanning both 1D and 2D codes, making it easy to scan barcodes and QR codes for fast and efficient checkout. This feature is especially useful for businesses with a large inventory of products, as it allows for quick and accurate scanning of items.

In addition to its scanning capabilities, the Android Handheld POS Terminal is also equipped with WiFi connectivity, allowing for seamless integration with your existing network. The device supports 2.4GHz/5GHz IEEE 802.11 A/b/g/n/ac, ensuring that it can connect to any network with ease. This feature also allows for easy software updates, ensuring that your device always has the latest features and security patches.

Overall, the Android POS Portable Handheld Terminal is a powerful and efficient solution for businesses looking to improve their checkout process. Its big screen, powerful memory, and versatile scanner make it the perfect choice for businesses of all sizes. Whether you are a small retail store or a large restaurant, the Android Handheld POS System is sure to meet your needs and exceed your expectations.

## Applications:

---

Thanks to its 8-inch 800\*1280 IPS display, Hanbu P8 is ideal for businesses that need a compact and portable payment solution without sacrificing screen size. The screen resolution is perfect for displaying transaction details, and the touch screen technology makes it easy for customers to complete their transactions.

With its NFC card reader, Hanbu P8 is capable of accepting contactless payments, making it a great option for businesses that want to offer their customers a quick and easy payment option. In addition to its card reader, Hanbu P8 comes equipped with TMS (terminal management system) which makes it easy for businesses to manage and monitor their payment processing activities.

The Hanbu P8 Android POS machine is certified with CE and ROHS, ensuring that it meets the highest standards for safety and quality. It is manufactured in Guangdong, China, and can be ordered in quantities as low as one unit. The delivery time for this product is typically 5-7 days.

Finally, the Hanbu P8 is equipped with 2.4GHz/5GHz IEEE 802.11 a/b/g/n/ac Wi-Fi, making it easy for businesses to connect to their local networks and process transactions quickly and efficiently.

Overall, the Hanbu P8 Android POS machine is a versatile and reliable payment solution that is perfect for a variety of businesses and industries. Its compact size, high-resolution screen, and contactless payment capabilities make it an ideal choice for retailers, restaurants, and other businesses that need a fast and efficient payment processing solution.

## Customization:

---

Our product is made in GUANGDONG and certified with CE, ROHS. You can order as low as 1 unit and receive it within 5-7 days. With voice call, data, WIFI, Bluetooth, and GPS support, our product is perfect for businesses on the go. The capacitive five-point touch screen makes it easy to navigate through our system.

Our lead time is only 5-10 working days, and you can choose from 3GB or 4GB RAM for your business needs. Additionally, our product supports Google Play Store, making it easy to download any necessary applications.

## Support and Services:

---

Our Android POS product offers comprehensive technical support and services to ensure that our customers experience seamless transactions. Our support team is dedicated to resolving any issues that may arise, providing timely and effective solutions. Our services include:

24/7 technical support via phone, email, and live chat

On-site support for hardware and software issues

Remote diagnostics and troubleshooting

Regular software updates to ensure optimal performance and security

Training and education for staff on product use and best practices

We believe in providing exceptional customer service and are committed to ensuring that our customers have the best possible experience with our product.

## Packing and Shipping:

---

### Product Packaging:

The Android POS product will be securely packaged in a cardboard box with cushioning material to prevent any damage during shipping. The box will also include a user manual and the necessary charging cable and adapter.

### Shipping:

Our standard shipping method is through reputable courier services and delivery times may vary depending on the destination. Customers will receive a tracking number via email once the product has been shipped. We offer free shipping within the United States, but additional charges may apply for international orders.
